

Talk 1: The SOHO/LASCO CME catalog and web-based analysis tools (30 min)

More than 20,000 coronal mass ejections (CMEs) have been observed by the SOHO/LASCO since 1996. They are archived at the CDAW Data Center as the SOHO/LASCO CME Catalog.

I will describe the basic functions of the CME Catalog and demonstrate new web-based analysis tools on the CDAW Data Center.
